The Hybrid Mobile Voting System

Remote Access to the Paper Ballot

ABOUT NEUVOTE

The tradition of voting is built with safeguards in place to protect the secrecy, security and integrity of our democratic process. Neuvote believes that even in online systems, those same traditions are still the safest way to vote. The Hybrid Mobile Voting System combines the tried and true security of supervised voter identification and the paper ballot with the convenience of a mobile app's remote accessibility.

OUR TEAM

- 100% Canadian owned and operated.
- 50+ Years experience in financial, security, enterprise and election assistance technology.
- 24/7 Support service.

BENEFITS

This is a new way to vote remotely and Neuvote was designed explicitly to solve the toughest challenges in online voting.

Here are some of the key benefits of the Hybrid Mobile System:

Unparalleled Security

No sensitive data-at-rest means the vote is stored only on the paper ballot.

One Voter, One Vote

Supervised voter verification means complete assurance of a voters identity.

Complete Secrecy

Our encryption is fully anonymized and end-to-end and the secrecy of the ballot is completely maintained.

No More PIN's / Mail

The hybrid system uses visual verification and confirmation which eliminates the need for PIN codes or postal mail outs.

AMCTO 2019

Neuvote

Online elections require the
highest level
of security.

"Merge your system with something that is analog, physical, or human so that if the system is subverted digitally it has a second barrier to go through."

Richard Danzig
Former Secretary US Navy

How it works:

Voter Identification

ID / Document scan is securely uploaded and sent to agent for pre-verification.

*Compatible with existing voter management tools.

Video Agent Verification

Allows for paramount voter identification and eligibility via end-to-end video communication channel.

Remote Paper Ballot

Voters cast their vote via the app and then watch and confirm their vote is cast-as-intended within the video channel.

We want to hear from you:

Your job is hard, we want to make it easier. Your feedback helps us build a system that works for you and is highly appreciated.
